Very motivated to continue developing my capabilities and grow professionally. I am confident in my ability to generate interesting ideas for effective marketing campaigns, while bringing creativity and strategic thinking to drive successful outcomes.

WORK & PROJECT EXPERIENCE

Staff IT Jun 2026 – Oct 2026
PT Solusi Prima Teknik (ahliAC) West Jakarta, Indonesia

- Monitored and maintained internal web-based systems and applications to ensure optimal performance, stability, and minimal system downtime.
- Identified, documented, tested, and reported system bugs to the development team while performing functional and regression testing before and after system updates.
- Managed and monitored the company's website, including generating and publishing website content and articles.
- Maintained and monitored IT infrastructure, including PCs, CCTV systems, networking devices, and other office hardware, ensuring all equipment operated reliably.
- Collaborated with software developers by assisting with system testing, troubleshooting, and technical validation during the development process.
- Provided technical support to employees by resolving system-related issues and ensuring business operations continued without interruption.
- Ensured the availability, reliability, and smooth operation of internal systems to support the productivity of all departments.

QLC Facilitator (Freelance) Aug 2025 – Sep 2026
PT Markaz Qotrunnadaa Learning Centre (MQLC) Bekasi, Indonesia

- Coordinated participant communications and delivered timely notifications regarding upcoming learning sessions and program schedules.
- Distributed learning materials in advance to facilitate participant preparation and support effective learning activities.
- Managed the distribution of Zoom meeting links and provided real-time technical assistance to resolve meeting access and connectivity issues.
- Facilitated participant engagement through effective communication and responsive support throughout program activities.
- Collaborated with supervisors and participants to ensure effective coordination, smooth information flow, and seamless program execution.

Customer Service, Sales Admin & Administrative Staff Jun 2025 – Mar 2026
PT Markaz Qotrunnadaa Learning Centre (MQLC) Bekasi, Indonesia

- Managed 1,300+ participants across multiple programs, ensuring smooth operations and high-quality service delivery.
- Achieved a ±94% participant retention rate against the defined target through consistent follow-ups and service optimization.

- Handled high-volume participant inquiries, delivering clear, accurate, and timely information across multiple communication channels.
- Managed the end-to-end participant lifecycle, including registration, payment tracking, follow-ups, and reminder coordination.
- Managed and analyzed large-scale participant data (1,000+ records) to support data-driven decision-making and continuous service improvement.
